Top Skills

Node.js

JavaScript

Web3.js

Certifications

Governo Aberto

Blockchain aplicada a resolução de problemas na Administração Pública

Decentralized Applications (Dapps)

MCTS SQL Server 2008, Business Intelligence Development and Maintenance

MCTS SQL Server 2008 Database Developer

Publications

Intellectual property and the future of NFT market

Blockchain e Decentralized Autonomous Organization (DAO) nos sistemas de saúde pós-pandemia

Propriedade intelectual e transferência de tecnologia com Blockchain

TRANSFERÊNCIA DE TECNOLOGIA COM BLOCKCHAIN. A ABERTURA DA WIPO A BLOCKCHAIN

Claudio Ulisse

Educator at IFB | NodeJS | Python | Flutter | .NET | Azure |
Researching and exploring Blockchain & Web3
Goiás, Brazil

Summary

Nascido e criado na Itália, moro no Goiás e trabalho no Distrito Federal.

Experience

IFB - Instituto Federal de Brasília (Oficial)

Associate Professor

July 2024 - Present (8 months)

Brasília, Federal District, Brazil

IF Goiano

Professor

July 2014 - August 2024 (10 years 2 months)

Campos Belos, Goiás

Teaching mainly logics, programming languages, web development, focus on NodeJS platform, JavaScript and database systems. Leading some research project and studies about web technologies, blockchain and IA

Instituto de Pesquisas Eldorado

Software Analyst

January 2012 - June 2012 (6 months)

Brasília

Developing a Dell system in a mainly Microsoft environment with C# language, using design pattern, Sql Server Broker Service, Scrum

Fundação Universidade Federal do Tocantins

Professor

February 2011 - July 2011 (6 months)

Teaching introduction to computer science in a bachelor course of mathematics

Norsa

IT analyst

November 2008 - January 2011 (2 years 3 months)

Business analysis, documentation, software design and development in .NET, design software integration between SAP, As400 and .NET environments, using COM libraries. Database modeling and working with workflows.

Developed skills:

- 1) software analysis
- 2) documentation
- 3) business analysis
- 4) software development
- 5) workflows
- 6) software integration (SAP, As400)

Technologies:

- 1) VB and C#
- 2) SQL server
- 3) SQL Reporting services
- 3) SAP Connector
- 4) Lotus Domino

Relevant Projects:

- 1) design and development of a PCP system, based on Six Sigma methodology, used for Control Quality
- 2) system refactoring for security auditing issues
- 3) SAC, system refactoring, with data reporting, workflows improvements and integration with As400
- 4) financial systems improvements using SAP and As400 integration and communication
- 5) Version control implemented, and now widely used
- 6) legacy systems maintenance in Lotus platform
- 7) systematization, componentization and continuous improvement of internal libraries

Solução Sistemas

web developer senior

July 2008 - November 2008 (5 months)

software development and analysis with .NET 2.0/3.5 platform using LINQ, SQL Server, MVC, IBATIS, UML

Software developed:

1. RestoNET Cotação: e-procurement system
2. RestoNET Vendas: e-commerce system
2. Vestibular online: university administration system

Ivia

software developer trainee

June 2007 - June 2008 (1 year 1 month)

Software development with .NET 2.0/3.5 platform using Linq, Sql Server, Ajax, C#

Software developed:

1. Sistema de competências: web system for human resource administration
2. Sisloca: web system to rent car (unfinished)

Lab. Multimeios - Universidade Federal do Ceará

Trainee (Linux environment)

December 2004 - December 2005 (1 year 1 month)

Development of a multi-terminal Linux distribution for educational purpose

Education

Universidade de Brasília

Master of Science - MS, Business Administration and Management,

General · (2020 - 2022)

Fa7

Graduação em Sistemas de Informação, ITC · (2006 - 2010)

Sapienza Università di Roma

· (1999 - 2003)

Universidade Federal de Viçosa

Especialização , Inteligência Artificial · (August 2023 - August 2024)
